Solution Overview

Jupiter Business Manager's (JBM) International Trading Management solution is designed for a company who is engaged in the trading and distribution activity of supply chain. The solution is equipped with following set of processes:

- Local or Overseas Purchase (including purchase consolidation)
- Back to back order (drop shipments or direct shipments which are linked to sales orders)
- Inventory Conversions
- Multi Location Inventory management

Following are the key feature of the entire solution:

- Manage your purchases with process of supplier profiling, RFQs and vendor quotation database. System helps you compare prices vs. other parameters which influence your purchase.
- Landed cost computation and accounting helps you handle multiple terms of shipment.
- Track your purchase orders in correlation with vendor quote and also sales orders (if it is linked to a sale).
- Location wise inventory tracking is an integral part of the solution
- The purchase could be done as drop shipment or direct shipment
- Complete sales order management and tracking feature allows you to report to the customer the status of the shipment as summary or detail.
- A sales order can also be broken down into multiple purchase order and vice versa, thus giving a flexible method of managing the order processing complexities.
- Inventory costing/management could be done using multiple methods such as LIFO, FIFO, weighted average etc.
- Multiple types of SKU handling such as Bulk, Batch or Serial tracking.
- Production and Expiry tracking of the inventory.
- Integration with JBM's core financials makes the solution a complete TRADING ERP.
- The solution is also bundled with features of SKU conversions which can also be implemented for production management (in a simple manufacturing outfit).
- System helps you manage foreign currency, thus helping your manage receivables and payables in foreign currency.
- Optional integration with JBM's Warehouse Management module will extend the capabilities to efficient storage and distribution.
- Get the application also hooked on to any point of sales, solution or deploy JBM's cash sales feature as your POS if you are in a retail business.
- Trading solution also offers an optional online ORDER management solution as part of customer portal extension.
