## Solution Overview

We offer solution for International Freight Forwarding and Total Logistics Service Provider, a complete and scalable business management solution as part of our "Jupiter Business Manager". The overview of this solution has been presented below.

The process overview has been shown below.

This module of JBM has been designed to cater to the needs of service providers of all sizes and geography. The multi company and branch support offers geographic scalability, while the multi-currency feature in the system give the support of diversity and complexity of financial transaction which is part of this business.

The **JBM INTERNATIONAL FREIGHT FORWARDING (IFF)** offers support to following nature of businesses:

- Local freight forwarders
- International freight forwarders having one or more offices in multiple countries
- Air/Sea Consolidators (NVOCC/IAC)
- Shipping Agents
- Freight Brokers
- Customs house agents
- 3rd and 4th Party Logistics Service providers

While offering abundant MIS for decision support, operations control and performance review, the solution is complete with state-of-the-art security control which is unique to JBM. The integration with the finance module removes all the level of redundant data entry effort from the system.

Integrated configurable work-flow engine of JBM eliminates movement of documents/hard copy papers between desks.

The PARTNER integration portal allows CUSTOMERS, overseas SERVICE PARTNERS to participate and seamlessly interact with your organization work-flow. JBM facilitates you to enhance customer experience thus ensuring a successful customer retention.

The solution is well integrated with **JBM FINANCIALS, LINER AGENCY** module, **WAREHOUSE MANAGEMENT** modules of **JBM**, which provides a good scalability to total logistics service provider. The solution also has optional extensions for **AIR OPERATIONS** and **LCL OPERATIONS** if the business is specialized in these areas.

Some of the unique standards which have been implemented in the system:

- UN Location codes, UN country codes, UN currency codes
- HS Codes
- ISO container codes
- MLO BL instructions can be logged
- Extensible MIS reports
- Direct interface with the financial accounting system
- Sales person wise exclusivity of the information
- Defining sales team and monitoring sales person wise MIS.
- Web enablement of the operations tracking feature of the system
- Configurable workflow for financial processes
- Alerts and reminders
- JBM Reporting Dashboard
- JBM Document library
